 - State Senate
 - Municipal
 - School District

Ensure Accuracy

Ensure Accuracy

- Each of these previous districts can have an election.
- Not entering the information correctly can cause someone to be linked to the incorrect jurisdiction.
- Resulting in not being eligible to vote in their election.

Ensure Accuracy

- The county auditor receives the voter registration information from Driver's Licensing by an electronic data feed.
- What is entered by Driver's Licensing is what the county auditor receives.
- The county auditor may not catch a mistake if you enter the information incorrectly.

Example

- John Smith registered to vote at his local driver's license exam station prior to the VR deadline.
 - He lives at 123 Main St. in Pierre, SD, but the person entering his voter registration information enters 1123 Main St.
 - 123 Main St. is in Ward 1.
 - 1123 Main St. is in Ward 2.
 - Ward 1 is having an election and John Smith shows up at the polling location. He would not be on the voter registration list because he is linked to Ward 2 because he was entered in as 1123 Main St.

Verification of DLVR On Election Day

- Someone shows up at the polling location to vote and their name is not on the registration list. Person insists that they registered to vote at the Driver's Licensing Exam Station.

 - County auditor contacts pollworker.
 - Person is allowed to vote if the person did in fact check "Yes" on the original application.
